DETAILED ACTION

Applicant's argument, see Remarks, filed 7/16/2009, with respect to the Office Action mailed 4/16/2009 have been fully considered. Some of the rejections have been withdrawn, others have been maintained, and some are new rejections or are new as a result of Applicant's amendments. Thus, this is a Nonfinal Office Action since a new rejection is being made. In summary, claims 1-46 are currently pending. Claims 33-46 are drawn to nonelected subject matter and are currently withdrawn.

Claim Objections

This application contains claims drawn to an invention nonelected without traverse. A complete reply to the Office Action must include cancellation of nonelected subject matter or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

The objection of claim 6 because of the following informalities: the term "2,2,2-trifluoroethyl" is misspelled is **withdrawn** based on the amendments.

The objection of claim 24 because of the following informalities: there is a double hyphen in third species named on page 9 is **withdrawn** based on the amendments.

Claim Rejections - 35 USC § 112

The rejection of claims 4, 7, 23 and 25 for reciting the limitation "1,3-propylene" or "isothiazolydiny-1,1-dioxide" in the definition of R₂ is **withdrawn** based on the amendments.

The rejection of claims 16, 17 and 30 for reciting the limitation "5-methyl-1,2,4-oxadiazol-3-yl" or "5-methyl-[1,2,4]-oxadiazol-3-yl" in the definition of R₃ is **withdrawn** based on the amendments.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 6, 24 and 27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 6 and 24, the substituents “trifluoromethyl” and “morpholinyl” lack antecedent basis. Said substituents are substituents on a furyl and pyridyl, which are defined for the variable R^1 . Claim 1 defines R^1 as a “substituted” furyl and pyridyl. However, page 10 in the Specification, lines 16-21, does not include said substituents as one of the groups defined as a “substituted.” See also claim 6, line 6 and claim 24, page 8, lines 6 and 8. Thus, claims 6 and 24 lack antecedent basis.

In claim 27, all the species named embrace a 3-fluorobenzene.” However, claim 10, from which claim 27 depends, only allows a 4-fluorobenzoyl group. Thus, claim 27 lacks antecedent basis.

Allowable Subject Matter

Claims 1-3, 5, 8-15, 18-22, 24, 26, 28, 29, 31 and 32 are free of the art and enabled.
